

KINGS BOTTLE

WINE & BEVERAGE **COMBO**

KINGSBOTTLE 2020

QUIET

EMBRACO compressor, a leading edge compressor produced by a company known for its quality and reliability. The result is a quiet cooler with quality, stability, durability and energy efficiency.

TRIPLE TEMPERATURE ZONE

Triple-zone design to accommodate three different serving temperatures to store your favorite beer, reds and whites at their ideal temperatures.

OPTIMIZED STORAGE

The interior cabinet and wood shelves for wine fridges are re-designed and optimized for maximum bottle capacity with standard Bordeaux, Pinot Noir, Riesling, and Champagne/Sparkling Wine bottles in mind.

KBU170BW3

Traditionally, there have been wine connoisseurs and beer connoisseurs, which means two different storage temperatures. KingsBottle is proud to break this tedious tradition with our innovative dual temperature wine and beverage coolers. Now you can enjoy an icy cold beer or a gently chilled bottle of wine all from the same unit! All of our combo units are perfect for bars, restaurants or that perfect home entertainment room - they have a little something for everyone. These units are so popular we have trouble keeping them in stock! We know that whether your favorite beverage is a well-aged glass of wine, a hoppy micro brewed IPA, or your favorite soda pop, the serving temperature can take your drink from "good" to sublime and we believe that every drinking experience should go above and beyond your expectations. KingsBottle can bring even more flavor to your drink. Cheers !

Key Features:

- Long life, high quality, quiet running INVERTER Embraco compressor that provides vibration free cooling.
- High quality temperature control system with automatic defrosting control mode, room high/low temperature alarm system, energy-saving management.
- State of the art fan - fan circulated air-cooling system. Cool air blows and distributes throughout the cabinet to ensure temperature uniformity in the entire cooler.
- Unique front-venting heat dispersion systems that allow each cooler to be built-in to cabinetry with minimal clearance.
- Beautiful hard wood shelves are strong, even under heavy loads, and warp resistant. Optimized for maximum bottle capacity and designed with standard Bordeaux, Pinot Noir, Riesling, and Champagne/Sparkling Wine bottles in mind. (* Wine Cooler)
- Steel ball-bearing rollers to ensure effortless placement and extraction of bottles regardless of weight. (* Wine Cooler)
- Gas charged tempered safety glass door, UV double layered coated glass to protect wine from both incandescent and fluorescent light sources.
- Lock with a spare key to protect your stock.

What's new in 2019 ?

With the move to Embraco INVERTER compressors, we have partnered with an innovator in the compressor industry. At the heart of our units is a leading edge compressor, produced by a company known for its quality and reliability. The result is a quiet cooler with quality, stability, durability and energy efficiency. Coupled with our industry respected fans create a cooler worthy of the KingsBottle name.

The interior cabinet and wood shelves are re-designed and optimized for maximum bottle capacity with standard Bordeaux, Pinot Noir, Riesling, and Champagne/Sparkling Wine bottles in mind. (* Wine Cooler)

As a testament to our confidence and quality, our manufacturer's warranty coverage is being extended to 2 years from date of purchase.

QUALITY PRODUCTS

HAPPY CUSTOMERS

Beyond expectations

Posted by **Tiffany Schwarz**

We could not be happier with this dual set. The beverage center and dual zone wine fridge is as pleasing to the eye as it is to its contents. It has made the perfect addition to our newly renovated kitchen. This I say with the utmost of praise as I am not one easy to please.

Extremely Satisfied

Posted by **Jason**

We bought the side by side beer cooler and dual zone wine fridge and have had it for about a year now. They function just as advertised. They are extremely quiet and nice to look at. They hold a Ton of beer and wine. They are coolers fit for a King.

Great under cabinet beverage/wine fridge!

Posted by **Sara**

We bought this combo fridge to be installed under our island for beverages and wine. We are very happy with the product! It was easy to set up, holds a lot of wine and other beverages. The dual zone on the wine fridge side is perfect for keeping red and whites in the same place. The products looks great too!

Just as advertised

Posted by **Unknown**

I wanted room for beer and wine. The three temperature zones are great. It has large capacity and looks great. We are really enjoying it!

Worth The Cost

Posted by **Mitchell Edwards**

I wanted a small capacity beer fridge AND a wine fridge to integrate into my bar and this one was exactly what I needed. It has three zones - one for the beer side of the fridge, then the wine side has two different zones so that I can chill my white wine colder than my reds. I didn't really care how it looked as long as it had the functionality I wanted, but the stainless steel door and the black finish are pretty classic and don't stand out too much in the room. It's also really quiet. It was worth the cost to get the features I wanted.

Awesome looking product for bar

Posted by **Unknown**

The product it self is great. The dual zone function on the wine cellar is nice for separating whites and reds. The combined look having them side by side makes our bar area look spectacular.

My only complaint was the shipping time. I paid for the expedited white glove which stated a timeline, but that timeline was not when you receive product, but when they ship it to a 3rd party. Took me an additional 2 weeks to get the products due to delivery schedules.

...
