UK Toll Free: 0800.208.4899

V Bar Wine Racking Installation Instructions

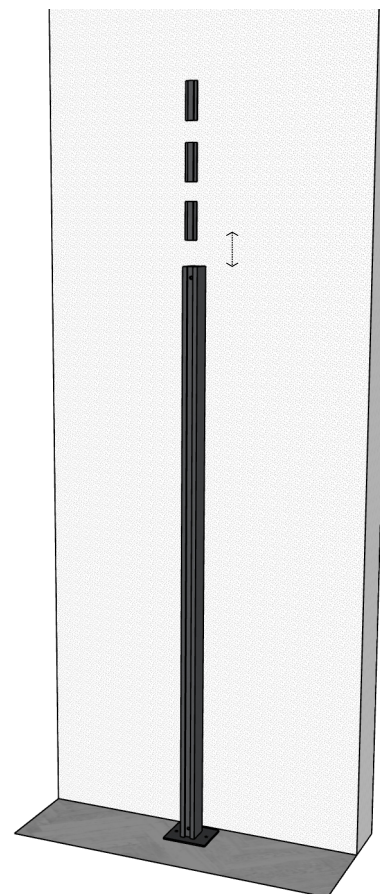

Step 1

Install the Floor Fitting in the appropriate location and slide the 4' Vertical Bar Section on Floor Fitting.

PG. 2 of 6
(Installation)

**If using LED Lighting Kit Add-on, or if there isn't enough height to slide the Fittings and Coupler, we recommend assembling the rack on the floor first. Once assembled, attach it to the floor and wall/ceiling.*

Step 2

Slide the Spacers into the Vertical Bar's channel (for double spacing as shown use 3 Spacers first, for single spacing use 2 Spacers first).

**For custom layouts, please refer to the drawing provided by your designer for ordering of spacers/cross supports.*

V Bar Wine Racking Installation Instructions

Step 3

Attach the Pegs to the Cross Supports with provided Bolts and slide the assembled Cross Support in the Vertical Bar's channel.

PG. 3 of 6
(Installation)

Step 4

Slide next assembled Cross Supports Spacers into the Vertical Bar's channel (for double spacing as shown use 2 Spacers between Cross Supports, for single spacing use 1 Spacer between Cross Supports).

**For custom layouts, please refer to the ordering of spacers/cross supports on your provided design.*

Step 7

Slide next assembled Cross Supports Spacers into the top Vertical Bar's channel (for double spacing as shown use 2 Spacers between Cross Supports, for single spacing use 1 Spacer between Cross Supports).

**For custom orders, please refer to your drawing for spacer/cross support order.*

PG. 5 of 6
(Installation)

Step 8

Slide the stand off or ceiling bracket into the top of vertical bar and attach to the wall/ceiling. Brackets allow for up to 5 extra inches (127mm) in height due to their telescopic nature.
