***Note:** Please verify that you have the correct number of parts before proceeding.

PLEASE FOLLOW WRITTEN INSTRUCTIONS CAREFULLY

1. Find an open, flat area in which to assemble your racking. Carefully remove all components from the box and check all parts to verify package contents.
2. Attach the sides to the top and bottom using supplied screws. Be sure to align them correctly so the shelves can be installed.
3. On one side, install the back cleats using screws provided. Top & bottom or left and right cleats fit against top & bottom or sides. Flip over when done.

4. On opposite side, install lattice shelves. The shelves are sized to have a snug fit.

5. If purchased, finish rack by attaching face trim and stand.

* Tip: Use glue sparingly

*Note: For more stability attach racks to wall.
