

Sentinel Series - Ducted Split Cooling Systems

Option Bundles & Accessories

All Wine Temperatures Bundle (on the evaporator section)

Allows a Wine Guardian unit to control to an extended temperature range from 45°F(7°C) to 64°F(18° C)

- Perfect for single to multiple cabinet applications and small wine rooms in which serving-temperature cooling is preferred

Integral electric heater coil and controls

- Protects the wine cellar from low temperature conditions
- Ideal for areas where ambient temperatures fall below 50°F/10°C

Extreme Climate Protection Bundle (on the condenser section)

Required for continuous operation of Wine Guardian manufactured condensing units in climates that fall below 20°F

Extreme Climate Protection Bundle

Enables the condenser to operate in temperatures as low as -20°F.

All Wine Temperatures Bundle

Allows the user to rotate wine stock and change the set point from season to season, making it ideal for restaurants, wine bars, clubs, etc.

Sentinel Series

Sentinel Series - Ducted Split Cooling Systems

Options Bundles & Accessories

Humidification

Drip pad type humidifier with integral evaporator fan, water valves, and controls

- Accessible humidifier pad for ease of maintenance
- Powered by 24 Volts from Wine Guardian unit; no separate power connections
- Cellar-mounted digital humidistat for precise humidity control
- Available as either freestanding or integrated models

Integrated Humidifier

Duct Collars

One supply and one return duct collars are standard. May be ducted from multiple outlets for applications versatility.

- Molded plastic design provides lightweight, rigid piece for connection to ductwork
- Can be sold as kits with flexible ductwork

Thermostat & Remote Sensing

For optimal temperature control and humidity readout of the wine cellar

- Can be placed anywhere within the wine cellar
- Up to 3 remote sensors can be connected to one Wine Guardian system to regulate your cellar based on average cellar conditions
